

Ranks

The rank of a pilot indicates on the one hand his flight experience and on the other hand the hours flown for airlines. The Company Hours (CH) are therefore decisive for the classification.

It is therefore quite possible that a pilot who prefers to fly as a freelancer can accumulate hundreds of hours, but still not exceed the rank of Second Officer. If, on the other hand, he had completed these flight hours for one of his own airlines or the airline of a fellow player, he would have gradually been promoted further and further.

If a player leaves an airline in which he has risen by one or more ranks, both CH and the rank itself are retained. This is true even if he moves to another airline.
