

Airlines have the possibility to provide special routes for pilots for their own execution. To view these routes, the pilot must call up the item Statistics under his user:

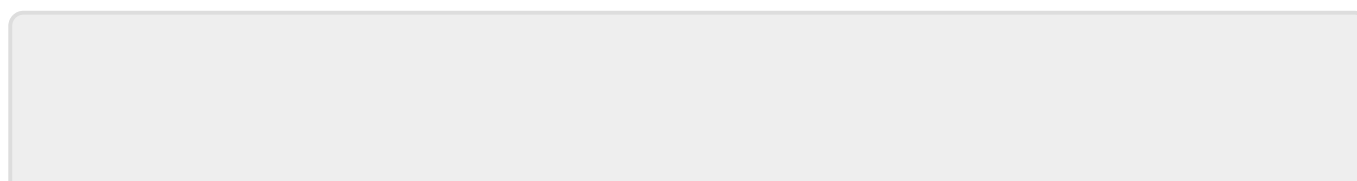

By clicking on “My reserved routes”, the route overview appears if routes are available:

(1 of 1)										
	Bezeichnung	Von (ICAO)	Nach (ICAO)	Distanz (nm)	Kurs	Öffentlich	BC	Aktiv?	Leibter Flug	Repeat
1	EDDR > EDRJ Cessna 207 Stationair II 24.06.2020 11:00	EDDR	EDRJ	18	288 NW	Ja	Nein	Nein	Nein	0 - 1
2	Fly the World Boeing 747-8i 24.06.2020 11:00	EDDR	KLAS	4842	316 NW	Ja	Nein	Nein	Nein	0 - 1

To execute a route, the route must be activated. The activation is done by clicking on the power button. If the route has been activated, it takes about 5 minutes until the route is executed. If the route has been executed, the pilot will find his orders in the order backlog in the waiting hall.
