

Bonus rule

The bonus rules are based on the flight time in minutes (see picture). The bonus rules are read and written in real time. Logging out as in the previous career system is not necessary. An airline has the possibility to introduce own badges of rank, the URL to the image has to be entered in the field "Badge URL" and will be displayed after saving.

The creation of rules is done by entering the input fields, if the entries are completed, the rule is created by clicking on +. To edit an existing rule, click on the pencil symbol in the corresponding line of the rule. To save an edited rule, click on the diskette symbol.

The pilot of an airline can see on his status page under Memberships | My Airlines which status he has reached in an airline:

In the terminal, the current status of the pilot is displayed under Billing (only if it is a 100% airline job.)

Abrechnung

Mission zur Abrechnung wählen

Bitte einen Quest wählen.....

Abflugterminal

(∞ Pax) FTW - Terminal (5.0 %)

Ankunftsterminal

(∞ Pax) FTW - Terminal (5.0 %)
