

System Pilot Otto

In Fly The World, players can also use the services of a system pilot, whose name is Otto by the way, to ferry aircraft. Otto takes over every ferry flight in every aircraft without complaint, but he also lets himself be properly remunerated for the effort. Conveniently, he takes care of the procurement of fuel. He even manages to do this in areas where there is not a single filled fuel tank to be found. Of course, you can only transfer aircraft if you are in possession of them. After all, Otto is a pilot, not a smuggler.

To engage Otto:

Hangar, 1 Click aircraft, 2 Transfer icon (2 arrows), 3 Enter destination, 4 Have cost calculated, 5 Select account, 6 Have job executed.

The duration for which, the machine is locked and the cost are then in the field.
